1002
Terminals whose minimum error rates are X% or more are included?
YES
NO
1003
Minimum error rates of all routes are X% or higher?
YES
NO
1004
Select route having lowest minimum error rate
1005
Exclude routes whose minimum error rates are X% or higher from candidates
1006
Only one candidate route remains?
NO
YES
1007
Select this route
1008
Terminals whose minimum reception sensitivities are YdBm or lower are included?
YES
NO
1009
Minimum reception sensitivities of all routes are YdBm or lower?
YES
NO
1010
Select route having highest minimum reception sensitivity
1011
Exclude routes whose minimum reception sensitivities are YdBm or lower from candidates
1012
Only one candidate route remains?
NO
YES
1013
Select this route
1014
There exist plural routes having minimum total number of relay terminals?
NO
YES
1016
There exist plural route having maximum number of relay cable terminals?
NO
YES
1015
Select this route
1017
Select route having lowest total error rate, or route having highest total reception sensitivity
End (route is determined)
